

BULLETIN: 53/2021

COVID-19 RESTRICTIONS UPDATE

The [Chief Health Officer has announced](#) some further changes to the current Directions.

From 11:59pm tonight, Tuesday 3 August, group limits will be removed from food and drink facilities, physical recreation and sport (including gym classes) and from tours and tour transport.

An overall venue cap of 100 people and density limits will continue to apply to food and drink facilities, with a cap of 25 and no density limit for those that are less than 100 sqm.

Limits of 100 people per indoor space and 300 per outdoor space will continue to apply to physical recreation facilities, as will density requirements.

QR Code Kiosk Check-in Service

Businesses may benefit from Service Victoria's [Kiosk Check-in Service](#) that helps venues to check-in customers who are unable to do so themselves.

The Kiosk allows workers to enter a customer's name and contact phone number electronically, using a tablet for example. All venues are required to provide an alternative record keeping method for workers and customers who do not have a smart phone.

The Kiosk Check in Service is an efficient way of doing this, making it easier for contact tracers to contact people quickly if an outbreak occurs.

Make sure everyone checks in everywhere, every time. Victorian businesses must use the [Victorian Government QR Code Service](#) to check-in their workers, customers and visitors, with some limited exceptions. Everyone must check-in, no matter how long they are at the premises.

Stay COVIDSafe

- Wear your mask correctly – covering your mouth and nose
- [Get tested](#) if you are ill
- Update your [COVIDSafe Plan](#) (check your [COVID Marshal](#) requirements)
- Support your workers to [get vaccinated](#) when they're eligible.
