

BULLETIN: 21/2021

JOBS VICTORIA SERVICES AND WAGE SUBSIDIES FOR VICTORIAN EMPLOYERS

The [Jobs Victoria Fund](#) is providing \$250 million in wage subsidies to help businesses with the aim of supporting at least 10,000 jobs.

Businesses may be eligible for a subsidy of up to \$20,000 to employ someone affected by the economic impacts of the COVID-19 pandemic.

Employers can register their business on the Jobs Victoria [online hub](#). They can post jobs and connect with people looking for work. The service is free to use and provides a shortlist of candidates with the skills and experience they're looking for.

Jobs Victoria Advocates are also helping connect jobseekers with the right services, training and support. Jobs Victoria Careers Counsellors will provide personalised guidance to find work, while Jobs Victoria Mentors will work closely with those who need extra support to get them ready for work.

Please share this information to your networks so employers can find out about the services available to them and the financial support they may be eligible for.

Here is a [stakeholder pack](#) to share with businesses in your community. It includes a printable brochure, social media tiles and videos.

To find out more, contact Jobs Victoria on 1300 208 575 on weekdays from 9am to 5pm.

For recruitment support visit jobs.vic.gov.au/findstaff or for employer support visit jobs.vic.gov.au/findwork.
