

Growing Suburbs Fund 2022-23

The Growing Suburb Fund (GSF) is a \$425M contribution to support the delivery of high priority community infrastructure projects for Victoria’s diverse and fast-growing outer suburbs. Designed to support the existing and future local infrastructure needs of Melbourne’s interface and peri-urban communities, the GSF brings forward local infrastructure projects that are essential to the liveability of outer suburban families.

City of Whittlesea

City of Whittlesea is located about 20 km north of the Melbourne Central Business District. The southern parts of the city are established urban areas and current residential developments are extending towards the north of the municipality. City of Whittlesea is home to an ethnically diverse community, with more than half of the residents from non-English speaking backgrounds.

City of Whittlesea is part of the interface council area and recorded a growth rate of 2.7% in 2019-20.¹ The population is projected to grow from 236,539 in 2020 to about 364,453 or 54.1% per cent by 2036.²

Victoria’s population growth slowed during the pandemic period with the impact over this time mainly felt in the inner and middle suburbs of Melbourne; regional areas were less affected due to increased migration from Melbourne. Based on the latest available data, areas across Victoria are now expected to return to normal rates and patterns.
