

Growing Suburbs Fund 2022-23

The Growing Suburb Fund (GSF) is a \$425M contribution to support the delivery of high priority community infrastructure projects for Victoria’s diverse and fast-growing outer suburbs. Designed to support the existing and future local infrastructure needs of Melbourne’s interface and peri-urban communities, the GSF brings forward local infrastructure projects that are essential to the liveability of outer suburban families.

Yarra Ranges Shire Council

Yarra Ranges Shire Council is located in Melbourne’s outer east between 30 and 110 km from Melbourne’s Central Business District. It covers an area of 2,470 km. Around 70 per cent of the Council’s population live in the urban areas, which represent approximately three per cent of its landmass to the west of the municipality. The remaining population is distributed throughout rural areas.

Yarra Ranges Shire Council is part of the interface council area and recorded a growth rate of 0.3% in 2019-2020¹. The population is projected to grow from 159,995 in 2020 to about 183,821 or 14.9% per cent by 2036².

Victoria’s population growth slowed during the pandemic period with the impact over this time mainly felt in the inner and middle suburbs of Melbourne; regional areas were less affected due to increased migration from Melbourne. Based on the latest available data, areas across Victoria are now expected to return to normal rates and patterns.
