The Growing Suburbs Fund is a contribution towards meeting critical local infrastructure needs for communities in Melbourne’s diverse and fast-growing outer suburbs. It is positioned to quickly respond to the pressures being experienced by interface communities by bringing forward local infrastructure projects that will make a big difference in the day-to-day lives of outer suburban families.

The City of Melton is located approximately 40 kilometres west of central Melbourne and is considered one of the fastest growing interface councils. In 2017, the City of Melton had a growth rate of 5 per cent compared with the national average growth of 1.6 per cent. It is anticipated that Melton’s population will more than double between 2017 and 2041. Strong residential growth is expected to continue, with a number of new suburbs such as Aintree, Fraser Rise and Hillside currently under development.
