

Growing Suburbs Fund 2021-22

The Growing Suburbs Fund is a contribution towards meeting critical local infrastructure needs for communities in Melbourne's diverse and fast-growing outer suburbs. It is positioned to quickly respond to the pressures being experienced by interface and peri-urban communities by bringing forward local infrastructure projects that will make a big difference in the day-to-day lives of outer suburban families.

Whittlesea City Council

Whittlesea City Council is located about 20 km north of the Melbourne Central Business District. The southern parts of the city are established urban areas and current residential developments are extending towards the north of the municipality. Whittlesea City Council is home to an ethnically diverse community, with more than half of the residents from non-English speaking backgrounds.

Whittlesea City Council is part of the interface council area and recorded a growth rate of 2.7% in 2019-20.¹ The population is projected to grow from 236,539 in 2020 to about 364,453 or 54.1% per cent by 2036.²

Victoria's population has witnessed a considerable slow-down in growth due to COVID and a pause in overseas migration. This is mostly felt in the inner/middle suburbs of Melbourne but is still evident in outer suburbs.

Community Energy Transition Project

25 Ferres Boulevard, South Morang 3752

The Growing Suburbs Fund will assist Whittlesea City Council to extend the Community Energy Transition Program. The Community Energy Transition Program has been supported by Council since 2014 and continues to be supported by the community.

This project will deliver solar PV/battery storage systems to reduce facility operating costs for community groups and sporting clubs, enabling savings to be reinvested into additional/expanded programs. The project will also de-gas several kindergartens making them more sustainable and provide an important example to the community.

To educate site users and the wider community on the solar PV / battery systems and their benefits, the project will include educational material such as posters, information brochures and digital displays.

Expected date of commencement: May 2022

Expected date of completion: September 2022

Total Project Cost: \$500,000

Growing Suburbs Fund: \$250,000

Other contributions:

- Whittlesea City Council: \$250,000

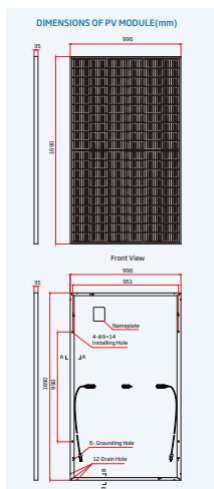

The other projects in Whittlesea City Council to receive funding from the Growing Suburbs Fund 2021-22 are:

- Worchester Park Bushfire Regeneration (\$275,000)
- South Morang Precinct Improvements (\$425,000)
- Patterson Drive Community Centre (\$2,000,000)

- Huskisson Reserve Pedestrian and Cycling Access (\$325,000)
- Plenty Ranges Arts and Convention Centre Customer (\$225,000)
