

VICMAP TRANSPORT ROAD CLASSIFICATIONS

Please see the attached road classifications and descriptions for local road for Vicmap Transport TR_ROADS and TR_ROADS_ALL datasets.

ROAD CLASS CODE	ROAD CLASS	DESCRIPTION
3	SUB-ARTERIAL	Hard surface formation road, which acts as: A connector between highways and/or arterial roads, or An alternate route for class 2 roads, or A principal avenue for massive traffic movements.
4	COLLECTOR	Hard surface or improved, loose surface formation road acting to: Provide for traffic movement (connects class 3 to class 5), or To distribute traffic to local street systems.
5	ACCESS MAJOR	A road type that provides access to multiple properties or public land (residential or commercial). Considered to be a through access road type.
6	ACCESS MINOR	A named road that services a small number of properties or public land (residential or commercial). Considered a limited access road such as dead-end road, laneway, or service road/lane type.
