

BULLETIN: 106/2021

TRUCK CURFEW REINSTATED

The Victorian Government has reinstated truck curfews across the state from 11.59pm 5 November 2021.

A Ministerial Order had previously suspended truck curfews (and loading zone signs) for heavy vehicles transporting food and personal hygiene products to stores during the recent COVID-19 lockdowns.

Greater flexibility was previously required in scheduling driver deliveries outside of normal operating hours so that supermarkets and pharmacies could meet an increased demand for essential goods.

The National Heavy Vehicle Regulator is monitoring and enforcing compliance in curfew areas.

The Department of Transport continues to work with local government, communities and industry to ensure truck curfews are complied with and enforced when necessary.
