Hand Sanitiser
Directory of Manufacturers
July 2020
Key information for buyers

Product type
The Therapeutic Goods Administration (TGA) has advised that the effectiveness of an alcohol-based hand sanitiser is dependent upon the amount of alcohol in the formulation. Look for a formulation that contains at least 60% alcohol.

If buying a product that states it is using the World Health Organization (WHO) formula, it should have 80% ethanol or 75% isopropyl alcohol.

Made in Victoria
Supporting local manufacturers helps to create jobs for more Victorians. Victorian businesses looking to purchase hand sanitiser are encouraged to buy from one of Victoria’s many local manufacturers.

Production constraints
The Victorian Government is aware that the supply of ingredients and packaging materials such as bottles, ethanol and gelling agents has fluctuated, and this may impact prices and availability.

It is advised to order ahead to secure product as there may be long lead times.

Disclaimer
While every effort has been made to verify the details in this directory the Victorian Government accepts no responsibility to guarantee the delivery of products or services by the organisations listed in the directory nor does inclusion in the directory guarantee the placement of orders or contracts. It remains beholden on any user of the directory to conduct normal commercial due diligence.
Key information for buyers (cont.)

Directory structure

This directory identifies large, medium and small manufacturers as well as suppliers of sanitiser dispensers and stations.

Large Manufacturers (>100,000 litres per week)
- These companies are the major suppliers of hand sanitiser in Victoria. They are established high volume producers and a number already supply to the health care sector. Most have over 250 employees. Six of the companies have Therapeutic Goods Administration (TGA) approvals with three currently awaiting approval.

Medium Manufacturers (10,000 - 100,000 litres per week)
- These medium sized manufacturers supply into health, retail, wholesale and government markets. A small number have Therapeutic Goods Administration (TGA) approval. Some are contract manufacturers.

Boutique/Smaller Manufacturers (<10,000 litres per week)
- Companies represented in this section are smaller producers. Some have pivoted their business models to respond to increased demand for hand sanitiser products as a result of COVID-19.

Note - Definitions are based on advice from Accord, the national industry association representing manufacturers and suppliers of hygiene, personal care and specialty products, their raw material suppliers and service providers.

Alepat Taylor

**Contact:** Mark Grant T: +61 03 9487 2599 | E: Mark.Grant@alepat.com.au  W: www.alepat.com.au  | A: 62 Albert Street, Preston VIC 3072

**Description:** Established in 1892, Alepat Taylor is an influential specialist in the wine, spirit, liqueur, bottled water and carbonated drink industries. Alepat Taylor now also manufactures and supplies a full range of hand sanitisers.

**Product type:** Therapeutic Goods Administration (TGA) approval pending.

**Gel Hand Sanitiser Product Composition:** Chemical Entity: Ethanol, CAS No: 64-17-5, Proportion: 70% Chemical Entity: Polyacrylic Acid Carbomer, CAS No: 9003-01-4, Proportion: 0.3% Chemical Entity: Glycerine USP, CAS No: 56-81-5, Proportion: 1.0% Chemical Entity: Amino Methyl Propanol, CAS No: 124-68-5: 0.27% Chemical Entity: Sterile (RO) Water, CAS No: 7732-18-5: Used as balance of formulation.

**Liquid Hand Sanitiser Product Composition (WHO Formulation):** Chemical Entity: Ethanol (Pharmacopeia Grade), CAS No: 64-17-5, Proportion: 80% Chemical Entity: Hydrogen Peroxide (Pharmacopeia Grade), CAS No: 7722-84-1, Proportion: 0.125% Chemical Entity: Glycerine (Pharmacopeia Grade), CAS No: 56-81-5, Proportion: 1.45% Chemical Entity: Sterile (RO) Water, CAS No: 7732-18-5: Used as balance of formulation

**Scale:** Large sized manufacturer (>100,000 litres per week).

**Customers:** Retail, wholesale and contract manufacture.

**Product details:** Hand Sanitiser Brands: ‘Pure Hand Care’ & ‘B.Safe’

- Gel Hand Sanitiser (dispensing mechanism – cap and pump) available sizes: 125mL; 300mL; 500mL; 5L; 20L; and 1000L Intermediate Bulk Container (IBC).

- Liquid Hand Sanitiser (dispensing mechanism – spray mist and pump) available sizes: 125mL spray; 300mL spray; 5L; 20L; and 1000L Intermediate Bulk Container (IBC).

- Hand Sanitise Stations: pump dispenser for ease of use; safely sand securely stores hand sanitiser within the lockable storage area.
AquaRush Pty Ltd

Contact: Roshan Chelvaratnam, Director

A: 88 - 92 Micro Circuit, Dandenong South VIC 3172

Description: AquaRush has a state of the Art facility that is HACCP, ISO9001 and GMP accredited. The commercial bottling facility produces demineralised water, sparkling beverages and a full range of 2PURE hospital grade and essential grade hand sanitiser.

Product type: World Health Organisation (WHO) formulation sanitiser rinse free formula (seeking Therapeutic Goods Administration TGA approval) - contains 80% ethanol, 0.125% hydrogen peroxide, added natural moisture (glycerol).

Scale: Large sized manufacturer (>100,000 litres per week)

Customers: Consumer and industrial markets. Private labelling services available.

Product details: Containers: 50ml, 250ml, 500ml, 1L, 5L, 20L, IBC (1000L)
Aware Environmental Pty Ltd

Contact: Alanna Hinds, General Manager
A: 4 Healey Road, Dandenong South VIC 3175

Description: Located in Dandenong South, Aware Environmental Pty Ltd employs 280 staff and is a leading manufacturer of natural, certified organic and eco-responsible products for the personal care and homecare market, with the capacity to produce hand sanitiser and other disinfectants. The company is Therapeutic Goods Administration (TGA) registered.

Product type: Sanitisers contain greater than 70% ethanol volume for volume, 100% natural ethanol (sugar/derived), with natural eucalyptus oil and natural aloevera leaf juice.

Scale: Large sized manufacturer (>100,000 litres per week).

Customers: Wholesale and contract manufacture.

Product details: Gel hand sanitiser - 70% ethanol: 50mL, 500mL & 1L bottles with pump; 125mL bottles with mist pump; and bulk gel and mist sanitisers and surface spray.
Baxter Laboratories

Contact: Bruno Malepa, Head of Business Development
M: +61 412 390 283 | T: +61 3 9720 3009 | E: bmalepa@baxterlaboratories.com | W: www.baxterlaboratories.com
A: 1019 Mountain Hwy, Boronia VIC 3155

Description: Baxter Laboratories is a privately-owned Australian company specialising in the development and manufacture of skin care, sunscreen and topical pharmaceutical/dermatological products that are sold worldwide. Baxter Laboratories is registered with the Therapeutic Goods Administration (TGA) and its purpose-built facility is Good Manufacturing Practice (GMP) certified for topical therapeutic medicines.

The company is currently producing high volumes of World Health Organisation (WHO) standard hand sanitiser and has significant spare capacity to increase production if required. Current lead time for production is one week, but this is dependent upon availability of packaging.

Product type: World Health Organisation (WHO) formulation hand rub - 80% alcohol (currently being supplied to the Victorian Health Department and to hospitals nationally). This formulation is also being supplied to the Department of Health in Hong Kong. Hand sanitiser gel 70%.

Scale: Large sized manufacturer (>100,000 litres per week).

Customers: Supply commercially into VicHealth and contract manufacture.

Product details: Baxter Laboratories brand: 50mL spray WHO 80% alcohol hand rub; 500mL and 1L pump pack WHO 80% alcohol hand rub or 70% Gel.
Ensign Laboratories Pty Ltd

Contact: Andrew Fast, Director
A: 490 Wellington Road, Mulgrave VIC 3170

Description: Ensign Laboratories provides a complete contract manufacturing solution including cutting edge product development, the latest in manufacturing technologies and world leading quality systems delivering innovation, true cost advantage and brand protection.

Product type: 70% Volume per Volume (v/v) formulations in both gel and spray formats available as well as World Health Organisation (WHO) formulation. Therapeutic Goods Administration (TGA) accredited facility to accommodate transfer of registered products or development of new formulations on longer timelines.

Scale: Large sized manufacturer (>100,000 litres per week).

Customers: Currently contract manufacture leading hospital brands and can offer gel and spray formulations for other markets.

Product Details: Capability for bottles from 50mL to 5L with caps or pumps as well as aerosols. Packaging available within 4-6 weeks includes 100mL and 250mL and 5L sprays; and 100mL, 500mL and 5L gels.

Some stock lines available in pallet quantities or option to contract manufacturer with Minimum Order Quantities (MOQs) of 10,000 or 20,000 units depending on pack size. Spray products in 240mL and 5L available now, 100mL in late June. Gel products in 100mL, 500mL and 5L in late June.
Essential Pack Pty Ltd

**Contact:** Shayne Higgins, Managing Director

A: 33 Jesica Road, Cambellfield VIC 3061

**Description:** Essential Pack Pty Ltd (Essential Pack) is a contract packing solutions provider, partnering with some of Australia’s leading Fast-Moving Consumer Goods (FMCG) companies. The company provides innovative solutions and value added services together with contract manufacturing and packaging services for partnering companies.

**Product type:** Sanitiser gel (ethanol 70%) compliant with World Health Organisation (WHO). All ingredients are listed on Australian Inventory of Chemical Substances (AICS). Therapeutic Goods Administration (TGA) - TBA.

**Scale:** Large sized manufacturer (>100,000 litres per week).

**Customers:** Retail, medical and wholesale.

**Product details:** ‘Sanigel’ semi gel sanitiser: 500ml – 1 litre pump bottles.
Fresche Bioscience Pty Ltd

Contact: Chris Pope, Chief Operating Officer
A: 6 Dalmore Drive, Scoresby VIC 3179

Description: Fresche Bioscience Pty Ltd (Fresche Bioscience) is a manufacturer of specialty hand sanitisers, hospital grade surface disinfectants and material protectants for textiles, apparel and polyurethane foam. Fresche Bioscience is a global leader in silane quat technology and manufacturing. The company’s products form a durable polymer coating that provides residual protection to applied surfaces.

Product type: 3 (trimethoxysilyl) propyldimethyl octadecyl ammonium chloride, <1.0% w/w quaternium-12 didecyldimethylammonium chloride (DDAC) 0.08% weight for weight (w/w), benzalkonium chloride (ADBAC) 0.08% w/w. The combination of (DDAC) + ADBAC (0.16) is above the US Food and Drug Administration (FDA) monograph for hand antisepsics and the addition of the silane quat adds residual durability. Siqura forms a polymer to both kill and inhibit recontamination by micro-organisms.

Scale: Large sized manufacturer (>100,000 litres per week).

Customers: Retail, commercial, institutional, aged care, education and healthcare markets.

Product details: ‘Siqura™’ hand sanitisers are provided in 50mL and 375mL foaming bottles; and 5L, 10L or 20L drums. Fresche Bioscience also supply gel formulations (currently in 5L, 10L and 20L formats).
**Hi-Gene Pty Ltd**

**Contact:** Dylan Alexander, Founding Director  
A: 1 Wurundjeri Drive, Epping VIC 3076

**Description:** Australian owned and run manufacturer of hand sanitiser and alcoholic and non-alcoholic products. Supplier to major retail, local government and emergency services.

**Product type:** 80% Alcohol by Volume (ABV) World Health Organisation (WHO) formula hand sanitiser, 70% ABV liquid hand sanitiser, 70% ABV gel hand sanitiser, 80% ABV gel hand sanitiser.

**Scale:** Large sized manufacturer (>100,000 litres per week).

**Customers:** Retail, wholesale, contract manufacture.

**Product details:** ‘Hi-Gene’ hand sanitiser: 100mL and 250mL flip top; 500mL pumps; and 1L, 5L, 20L or 25L refill.
SDI International Pty Ltd

Contact: Chris White, Managing Director
A: 33-37 Villas Road, Dandenong South VIC 3075

Description: SDI International Pty Ltd (SDI) manufacture a large range of cleaning products for both the industrial and domestic markets. The company has large production capabilities and can manufacture to customer requirements.

Product type: Aloe Vera juice extract, ethyl alcohol (ethanol E100) S.G.79, silver ion water, lavender fragrance 30/1369. This material is subject to the following international agreements: base convention (hazardous waste) - organic solvents excluding halogenated solvents international convention for the prevention of pollution from ships (MARPOL) Annex III - harmful substances carried in package form. Hazardous Substances and New Organisms (HSNO) group standard: HSR002528 - cleaning products (flammable) group standard 2006.

Scale: Large sized manufacturer (>100,000 litres per week).

Customers: Pharmaceutical (currently producing the ‘Pharmacal’ brand for the WA market), transportation, hospitals, Victoria Police, Rentokil and many other companies.

Product details: SDI antiseptic hand gel: pump or cap available in 250mL, 500mL, 1L, 5L and 20L. SDI antiseptic hand rub - fine mist: spray, pump or cap available in 100mL, 250mL, 500mL, 750mL, 1L, 5L and 20L. RIDOV surface spray/wipe: spray, pump or cap available in 750mL, 1L, 5L and 20L.
Urban Green Farms Pty Ltd

Contact: Andrew Meseha, Founder and Managing Director
A: 132c Gwynne St, Cremorne VIC 3121

Description: Urban Green Farms Pty Ltd (UGF) provides a range of sustainable solutions and products. Urban Green Farms has a partnership with Fresche in the ‘Siqura’ product range. Areas of focus includes marketing, communications, logistics, international and national testing facilitation, international relations and strategic growth development.

Product type: SIQURA™ antibacterial hand is alcohol-free. It is suitable for use by children, and can be used around food, pets and plants. Unlike traditional alcohol based hand sanitisers that only provide short term protection, the unique QuatLok technology creates an invisible microscopic layer of protection on skin which continually destroys bacteria for up to 24 hours.

Scale: Large sized manufacturer (>100,000 litres per week).

Customers: Retail, wholesale and contract manufacture.

Product details: 50mL, 100mL, 250mL, 375mL, 500mL, 5L, 20L, 200L and 1000L hand sanitiser. 100g and 300g hand and surface sanitiser protectant.
Westlab Pty Ltd

Contact: Jared Fowler Associate, Business Development
A: 4 Cargo Way, Mitchell Park VIC 3355

Description: Westlab Pty Ltd (Westlab) is a manufacturer and importer of laboratory equipment and consumables. The company offers a large stock holding and provides same day dispatch.

Product type: 70% Volume for Volume (v/v), ethanol with added gel agents and emollients. Product currently undergoing Therapeutic Goods Administration (TGA) accreditation.

Scale: Large sized manufacturer (>100,000 litres per week).

Customers: Schools/universities, labs, healthcare, industry and retail.

Product details: Pre-packaged gel in pump dispenser: 500mL, 1L and 5L bulk gel; liquid sanitiser: 5L and 20L. Also supply automatic gel dispenser and automatic liquid spray dispenser.

ACB Group Pty Ltd

Contact: Matthew Arutjunow, General Manager
A: 118 Swann Drive, Derrimut VIC 3026

Description: The ACB Group is an Australian owned company and is fully accredited to ISO 9001. Manufacturing for over 12 years, the company specialises in Dangerous Goods for a wide variety of industries both industrial and commercial.

Product type: ACB Group specialise in handling flammable goods and produce large batches of ethanol based hand sanitiser. The company complies with Dangerous Goods regulations and World Health Organisation (WHO) formula.

Scale: Medium sized manufacturer (10,000-100,000 litres per week). Can blend up to 100,000 litres per week. Caters to small and large companies.

Customers: Contract manufacture.

Product details: As per customer requirements and have filling capabilities to fill most pack sizes from small to large productions run.
ANC Enterprises Pty Ltd (ANC)

Contact: Alex Blagojevic, Co-Founder and Chief Executive Officer
A: 159 - 171 Wellington Road, Clayton VIC 3168

Description: ANC is a 100% Australian owned company that manufactures, wholesales and distributes high-quality skincare, supplements, infant milk powders and pharmaceuticals.

ANC manufactures hand sanitiser products under the New Age Botanicals brand. The company is capable of formulating and manufacturing general use hand sanitiser gel and mist spray and is currently manufacturing a general use 75% ethanol hand sanitiser gel.

The company also provides full-service contract manufacturing for products from creation of the formulation, packaging, design and manufacturing through to final approval by Australia’s Therapeutic Goods Administration (TGA) if required.

Product type: General use, 75% ethanol gel.

Scale: Medium sized manufacturer (10,000-100,000 litres per week).

Customers: Online, direct sales.

Product details: 125mL, 250mL, 500mL, 1L, 5L, 20L and bulk IBC 1000L.
Aussan Laboratories

Contact: Kevin Joyce, Director
A: 15 Fordson Rd, Campbellfield VIC 3061

Description: Aussan Laboratories Pty Ltd manufactures organic certified products for both hygiene and agriculture markets. The company’s focus is to provide non-toxic, sustainable products that are effective at controlling pathogens but safe for people, animals and the environment.

Product type: Standard formulation has 70% Volume by Volume (v/v) of ethanol with aloe Vera and glycerine. Also contains proprietary product Aussan L42 which has been tested to hospital grade disinfectant and against Coronavirus under Therapeutic Goods Administration (TGA) guidelines. Can formulate hand sanitiser as a gel or liquid or for use through a foaming soap dispenser.

The level of ethanol can be varied based on application as the product is boosted by the presence of Aussan L42. Tailored formulation to suit.

Scale: Medium sized manufacturer (10,000 - 100,000 litres per week).

Customers: Manufacture bulk product and prefer to supply wholesale or contract manufacture.

Product details: Specialises in organic and natural chemical products with a focus on non toxic alternatives. ‘Aussan Revolution’ brand: 5L gel and mist hand sanitiser refills.

Liquid hand sanitiser can be provided in: 250mL flip lid; 500mL trigger sprays; and 1L, 5L, 20L or 1000L containers. Typical 5L size can be provided with a dispenser pump.
Bellarine Brewing Company Pty Ltd

Contact: Tim Page-Walker, Company Director
A: Factory 5, 13-15 Crown Street, South Geelong VIC 3220

Description: Bellarine Brewing Company Pty Ltd, an Australian owned and operated company, are a manufacturer of alcoholic and non alcoholic beverages and contract manufacture for some of Australia's largest beverage brands. The company also manufactures hand and surface sanitiser under their own brand Surf Coast Sanitiser - specialising in the bulk supply market and public area management. The company has designed and locally manufactured a public area foot operated dispenser that holds a 5L container of sanitiser, ideal for public space applications, playgrounds, schools, churches, sporting clubs and buildings.

Product type: Liquid Hand Sanitiser - World Health Organisation (WHO) compliance 80% Volume for Volume (v/v) ethanol. Gel hand sanitiser - 70% ethanol, surface sanitiser - 80% ethanol. All items are produced using Australian ingredients and bulk packaging.

Scale: Medium sized manufacturer (10,000 - 100,000 litres per week).

Customers: Combination of retail, wholesale and contract manufacture.

Product details: All 3 products (liquid, gel and surface sanitiser) are supplied and marketed under the brand ‘Surf Coast Sanitiser’: 500mL pump packs and spray bottles as well as bulk 5L jerry cans and bulk 1000L IBCs.

Stainless steel bottle wall mount and a ‘touchless’ foot operated bulk dispenser: 5L bulk bottles.
DefendTex Pty Ltd

**Contact:** Brett Reddy, Operations Manager

M: +6 425 762 201 | T: 03 9013 0185 | E: brett.reddy@defendtex.com | W: www.defendtex.com

A: 46-52 Bessemer Drive, Dandenong South VIC 3175 Australia

**Description:** DefendTex Military Products Pty Ltd (DefendTex) services military and law enforcement agencies around the world. Our vision is to be a world leader in defence technology with a wide portfolio of locally designed and manufactured defence technologies equipping the Australian and Allied defence forces.

**Product type:** 80% Alcohol + 0.125% hydrogen peroxide solution produced in line with World Health Organisation (WHO) formulation 1 guidelines. Ethanol 80%, glycerol 1.45%, hydrogen peroxide solution 0.125%.

**Scale:** Medium sized manufacturer (10,000 - 100,000 litres per week).

**Customers:** Combination of wholesale and contract manufacture. Product primarily made available for use by government and community groups.

**Product details:** Liquid and gel options available, provided in either 5L or 15L containers. Packaging options provided to allow bulk supply and decanting into smaller containers.
Don Kyatt Spare Parts

Contact: Dale Hadfield, Branch Manager
A: 245 Sunshine Road, Tottenham VIC 3012

Description: Don Kyatt is a supplier of wholesale and retail automotive 4wd spare parts.

Product type: Compliance with World Health Organisation (WHO) formulation, base is 75% alcohol denat with added hydrogen peroxide, glycerol, aqua, plus additional to gel formulation sepinov EMT10.

Scale: Medium sized manufacturer (10,000 - 100,000 litres per week).

Customers: Supplier to wholesale level and contract manufacture.

Product details: Assorted sizes of both gel and mist; 50mL, 250mL, 500mL, 1L, 2.5L, 5L, 20L, 200L and 1000L/Intermediate Bulk Containers (IBC).
Ego Pharmaceuticals Pty Ltd

Contact: Julie Mulvihill, Tenders Submission and Administration Coordinator
T: +61 3 8766 4168 | E: julie.mulvihill@egopharm.com | W: www.egopharm.com
A: 21-31 Malcolm Rd, Braeside VIC 3195
