

The Growing Suburbs Fund is a contribution towards meeting critical local infrastructure needs for communities in Melbourne's diverse and fast-growing outer suburbs. It is positioned to quickly respond to the pressures being experienced by interface communities by bringing forward local infrastructure projects that will make a big difference in the day-to-day lives of outer suburban families.

The City of Casey is located in Melbourne's south-eastern suburbs, between 28 and 60 km from the Melbourne Central Business District. It is one of the fastest growing interface councils with a population growth rate of 4.4 per cent in 2017 when compared to the national average of 1.6 per cent. The population in Casey is predicted to increase from 327,400 in 2017 to approximately 515,000 by 2041¹.

The City of Casey encompasses a total land area of about 400 square kilometres. Rural land is used mainly for grazing, horse agistment, market gardening, commercial flower growing and open space and parklands.

The City of Casey has a diverse and young community with about 36 per cent of residents speaking a language other than English at home and 22.7 per cent of residents under 15 years of age.
